Such fair proportionate amount shall be determined each year by the Board of Directors of the District and the determination shall be final and conclusive. - (e) Two (2¢) cents per acre-foot for each acre-foot of water sold as provided in Paragraph 1 hereof and which is not as of January 1 of each year then subject to delivery during such year in accordance with the delivery schedule set out in said Paragraph 1.

6. RELIEF IN EVENT OF DROUTH AND WATER SHORTAGE: In the event there is a shortage of water caused by drouth, inaccuracies in distribution not resulting from negligence, hostile diversion, prior or superior claims or other causes not within the control of the District, no liability shall accrue against the District or the United States or any of their officers, agents or employees or either of them for any damage, direct or indirect, arising therefrom and the payments to the District provided for herein shall not be reduced because of any such shortage or damage. During periods of water shortage, allocations of treated and untreated water for municipal, domestic and industrial use shall have first priority.

7. CONSTRUCTION, OPERATION AND MAINTENANCE OF PURCHASER'S FACILITIES: The Purchaser shall construct, operate and maintain without cost to District or the United States, the wells and facilities necessary to secure and accurately measure its water supply. 11. ACCELERATION OF DELIVERY SCHEDULE: In the event the District at any time prior to January 1, 1983, receives a bona fide offer to purchase water which in its judgment it cannot supply except by invading that portion of the water covered hereby which is allocated to deliveries to commence in the future years, the District may notify the Purchaser hereunder in writing that it proposes to terminate and cancel this contract as to a portion or all of the water so allocated to deliveries scheduled to commence in then future years, and thereupon the Purchaser shall,

- (a) Within a period of one month after receipt of such notice elect in writing delivered to the District to accelerate the delivery and payment schedules set out in Paragraphs 1 and 3 hereof to encompass for immediate delivery and full payment the portion of the water referred to in the District's notice to Purchaser, or
- (b) Be deemed to have acquiesced in and consented to the termination and cancellation as set out in the District's notice to the Purchaser.

Gentlemen:

We refer to the existing contract between Partnership Investments of Colorado, Inc. and this District (copy enclosed) for purchase of untreated replacement water in the total amount of 2,000 acre-feet.

This water was to have been delivered as provided in paragraph one of the contract, on a stepped-up basis. You will recall, however, that the Bureau of Reclamation approved 100 acre-feet available for use in 1974 and held the agreement for full approval of the 1900 a.f. balance.

Due to the delay in obtaining full approval of the agreement by the Bureau of Reclamation, it is suggested that the schedule of delivery be amended, and, accordingly, this letter will stand as our mutual modification of paragraph one of the aforesaid contract to provide for water deliveries thereunder as follows:

100 acre-feet available for use in 1974,
100 acre-feet available for use in 1975,
200 acre-feet available for use in 1976, being
 an additional 100 acre-feet,
400 acre-feet available for use in 1977, being
 an additional 200 acre-feet,

1,000 acre-feet available for use in 1980, being

 an additional 200 acre-feet,
2,000 acre-feet available for use in 1985, being
